Microsoft Sitebuilder Network Member

1998 to 2004

Projects

MusicDb

Open Source

<https://github.com/Rickrat/MusicDb>

MusicDb is a project to have an modern Sql Server music database and generate code and services to utilize it.

Interests

Woodworking

Woodworking, Furniture design, CNC, Woodworker

Electronics

Electronics, Soldering, IOT, Arduino

Music

Music, Disc Jockey, Karaoke, Singing, Drums, Keyboard, Bass, Guitar

Programming

Programming, Software Development, Coding

Painting

Painting, Canvas, Art, Bob Ross

Experience

TEKsystems

Senior Software Developer - Contract

Oct 2021 to March 2023 Consulted for TEKsystems with their clients. Utilized XAML, C# and WebAPI to maintain their legacy product.

Technologies: Git, Azure DevOps, C#, WPF, Silverlight, XAML, ASP.NET MVC, ASP.NET Core, Sql Server, WebAPI

Kelly Mitchell Group

Senior Software Developer - Contract

Jan 2021 to Oct 2021 Consulted for Kelly Mitchell Group. Maintained and enhanced their internal business desktop group planning software.

Technologies: Git, Azure DevOps, C#, WPF, XAML, ASP.NET MVC, ASP.NET Core, Sql Server, OpenAPI, WebAPI

2CP Processor / Versapay

Senior Software Engineer

July 2019 to January 2021 Established multiple integrations and APIs of payment processors into our payment gateway. Implemented generated code for automating import of files to databases. Mentored and encouraged learning with my team. Promoted code quality, SDLC, unit testing and continuous integration.

Technologies: Git, Github, Jira, Azure DevOps, C#, WebAPI, OpenAPI, WPF, XML, ASP.NET MVC, ASP.NET Core, JavaScript

Credit One Bank

Software Development Manager

June 2018 to July 2019 Managed a team of 5 software engineers. Designed and collaborated with a team to implement microservice APIs for both mobile and web. Mentored and encouraged knowledge transfer and learning with my team. Promoted code quality, SDLC, unit testing and continuous integration. Lead multiple large and small projects to completion.

Technologies: Jira, Accurev, Docker, WebAPI, Microservices, C#, Oracle, WPF, XAML, ASP.NET MVC, ASP.NET Core, JavaScript, Windows Forms

Rakuten Super Logistics

Software Development Manager

January 2017 to June 2018 Designed APIs for interoperability of robotic software. Managed a team of 4 software engineers. Set standards and practices. Mentored and encouraged knowledge transfer and learning with my team.

Technologies: C#, Jira, Entity Framework, WPF, XAML, SQL Server, ASP.NET MVC, WebAPI, JavaScript, Virtualization, Windows Azure

NSTec, LLC

Senior Project Controls Specialist

January 2016 to December 2016 Converted existing applications from MSAccess to C# and WPF. Created reports for project managers based off of data from PM6 and Cobra.

Technologies: C#, VB, Entity Framework, WPF, XAML, Windows Forms, SQL Server 2012

Inenvi

Lead Software Engineer

July 2014 to January 2016 Ported an existing silverlight project to MVC 4 / Web API / OData 4. Mentored other developers on the team with Lunch 'N Learn tutorials on architecture, unit testing, and clean coding.

Technologies: C#, ASP.NET MVC, JavaScript, Entity Framework, WPF, XAML, Angular, Silverlight, SQL Server 2012, TFS 2012, Virtualization

Quality Medical Imaging

Director of Software Development

December 2013 to June 2014 Managed software development and IT infrastructure. Collaborated with business to develop new features and services that transmit mobile medical images and data. Managed a team of 2 software engineers. Set standards and practices. Mentored and encouraged knowledge transfer and learning with my team. Technologies: C#, ASP.NET MVC, WPF, XAML, SQL Server 2008 R2, TFS 2012, SqlAnywhere, Virtualization

Station Casinos

Senior Software Engineer

March 2011 to December 2013 Helped the company maintain and enhance their existing guest location software. Worked with the business to develop new features as well as create services that process data.

Technologies: C#, VB.NET, ASP.NET MVC, WPF, Silverlight, SQL Server 2008 R2, TFS 2010, IBM ISeries AS400, Virtualization

ActiveAsp Software / CompDJ

Owner

June 1992 to Present Retained by diverse industry clients to create applications and websites, our corporate mission is to provide a perfectly tailored product at a reasonable price. Working closely with senior management to conceptualize, design, and launch internet and intranet sites that will fulfill corporate goals and allow for future expansion. Developing software for the shareware industry, and creating dynamic database-driven websites for clients.

Technologies: C#, VB.NET, XAML, WPF, Silverlight, TFS, ASP.NET, AJAX, Web Services, Git, Azure DevOps, SQL Server 2000-2019, Windows Server 2003, COM, MP3, MEF, Content Management, Windows Media
